PROFESSIONAL SUMMARY

Fresh graduate in Informatics (GPA 3.77/4.00) and full-stack developer specializing in Laravel/PHP and Next.js. Shipped production web applications with CI/CD and validated usability through structured testing (SUS 81.83, n=56), with findings published in a national journal. Seeking a junior full-stack developer role.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML, CSS, SQL, Dart, C#

Frameworks: Laravel, Next.js, React, Livewire, Bootstrap, WordPress, Flutter, .NET Framework

Databases: MySQL, MongoDB, SQL Server

Concepts: MVC, REST API, CRUD, Authentication & Role-Based Access, SDLC, UI/UX Design, Usability Testing (SUS)

Tools: Git, GitHub, VS Code, Laragon, Vercel

Design & Multimedia: Figma, Canva, Adobe Photoshop, CorelDRAW, Autodesk 3ds Max, Mixamo, Adobe After Effects, Adobe Media Encoder

PROJECTS

MuSantara — Interactive Traditional Music Instruments Website

Laravel, PHP, MySQL, Bootstrap, JavaScript | Live: musantara.my.id | Mar 2026

- Developed and deployed an interactive educational website on Indonesian traditional musical instruments featuring categorization, search, audio playback, quizzes, and a responsive UI.
- Achieved a System Usability Scale (SUS) score of 81.83 (excellent) from 56 respondents through structured usability testing.

Capit Store — E-Commerce Web Application

Next.js, MongoDB, Clerk, Cloudinary | Live: capit-store-three.vercel.app | May 2025

- Built a full-stack e-commerce platform with user authentication, role-based access, product and inventory management, shopping cart, and order processing.
- Deployed to production on Vercel with CI/CD from GitHub; implemented automatic stock updates and address management for end-to-end purchase workflows.
- Validated with a real end-to-end test purchase (checkout through seller dashboard) before launch.

News5 — News Portal Website

Laravel, PHP, MySQL, Livewire | Live: news5-umber.vercel.app | Nov 2024

- Developed a news portal with article browsing and content management serving 4 user roles: administrator, editor, journalist, and reader.
- Implemented CRUD, authentication, role-based access control, input validation, and a threaded comments/replies system.
- Designed the responsive UI/UX and seeded 12 demo articles with cover images.

ParkEazy — Desktop Parking Management System

C#, .NET Framework, SQL Server | Oct 2024

- Designed and built a desktop parking management application including the full UI/UX and application interface.
- Implemented authentication, vehicle records, parking space management, reservations, and CRUD operations.
- Added parking availability monitoring and transaction recording for daily operational use.

JBAG — Game Account Marketplace Mobile App

Flutter, Dart, Figma | May 2024

- Co-developed a mobile marketplace for game accounts: implemented product listings, navigation, and interfaces from Figma designs.
- Collaborated with the team using Git/GitHub and supported application testing.
- Produced a release APK (~19.5 MB) via automated GitHub Actions build pipeline.

Karangtengah Village Website

WordPress | Aug 2025

- Developed and customized a village information website using WordPress themes and plugins, covering village profile, public services, and content management.
- Restructured navigation and content organization so residents can find public-service information more easily.

Petualangan Si Tupat — 3D Animation Production

Autodesk 3ds Max, Mixamo | Mar 2025

- Modeled 3D characters and environment assets (trees, houses, scene elements) and rigged characters for animation.
- Created character and camera animations and composed full 3D scenes with roads, buildings, backgrounds, and props.
- Compressed the final video from 136 MB to 13 MB for smooth web playback in the portfolio.

Lapon — Character Intellectual Property Development

Character Design, IP Strategy | Apr 2024

- Developed the character design of “Lapon”: appearance, visual style, character profile, and overall concept plus background story and synopsis.
- Explored market potential through SWOT analysis, IP development strategy, and market segmentation.

PUBLICATION

Pengembangan dan Evaluasi Usability Web Multimedia Interaktif Alat Musik Tradisional Menggunakan SUS

Jurnal Sistem Komputer dan Informatika (JSON), June 2026.

EDUCATION

Universitas Amikom Purwokerto — Bachelor of Informatics, 2022–2026

Cumulative GPA: 3.77/4.00

CERTIFICATIONS

Red Hat Enterprise Linux Administration — 2025
Microsoft Office Certification — 2025
English Language Certification — 2025
Front-End Web Development (Supercharged) — Dicoding, 2024
